

Match Balls Catalogue 2026/27

FNOMNO

Designed and Engineered for highest level of the game. The ball meets FIFA's most stringent test criteria including size, weight & performance characteristics.

Pro balls feature eamless thermally bonded surafce and precision-engineered debossed surface texture that channels airflow for flight stability. Built to the exact specs used in top-tier professional competition,

- ▲ LEVEL OF PRACTICE ADVANCED
- ▲ INTENSITY HIGH INTENSITY
- ▲ PLAYING SURFACE GRASS, ARTIFICIAL GRASS
- ▲ AGE 12+
- ▲ TYPE OF PRACTICE PRO GAMES

FIFA-LEVEL
Performance Balls

MAIN MATERIAL	POLYURETHANE	PACKING	FOAM LINING
BONDING TECH	THERMAL	INSIDE SHELL	COTTON/POLY
STITCHING TYPE	SEAMLESS	BLADDER	LATEX

Debossed channels disrupt airflow across the ball for less drag + more stable flight

Size 5
420-445 GM
32-Panels
constant after
3000 kicks at 50 km/h

DERBY

Built for match day. Thermally bonded seamless cover with tight roundness and water-uptake tolerances for consistent flight and touch. a ball that feels closer to pro-level touch ideal for competitive fixtures, higher-level club play, or anyone who wants consistent performance.

- ▲ LEVEL OF PRACTICE ALL LEVELS
- ▲ INTENSITY MID-HIGH INTENSITY
- ▲ PLAYING SURFACE GRASS, ARTIFICIAL GRASS
- ▲ AGE 12+
- ▲ TYPE OF PRACTICE COMPETITION GAMES, TRAINING

FIFA-LEVEL
Performance Balls

MAIN MATERIAL	POLYURETHANE	PACKING	FOAM LINING
BONDING TECH	THERMAL	INSIDE SHELL	100% POLY
STITCHING TYPE	SEAMLESS	BLADDER	SR

Debossed channels disrupt airflow across the ball for less drag + more stable flight

Size 5
420-445 GM
32-Panels
constant after
3000 kicks at 50 km/h

GRIND

Durable HYBRID construction built for heavy training, grassroots matches and rougher playing surfaces. Reliable performance match after match at a price that works for high-volume play.

- ▲ LEVEL OF PRACTICE ALL LEVELS
- ▲ INTENSITY HIGH INTENSITY
- ▲ PLAYING SURFACE GRASS, AG, ASTRO SURFACES
- ▲ AGE 12+
- ▲ TYPE OF PRACTICE TRAINING, GAME

FIFA-LEVEL
Performance Balls

MAIN MATERIAL	POLYURETHANE	PACKING	FOAM LINING
BONDING TECH	HYBRID	INSIDE SHELL	100% POLY
STITCHING TYPE	M-Stitch 6 Glue	BLADDER	SR

Debossed channels disrupt airflow across the ball for less drag + more stable flight

Size 5
420-445 GM
32-Panels
constant after
3000 kicks at 50 km/h

DRILL

Machine-stitched build made to handle daily drills, shooting, and repeated use. Consistent touch session after session, structured TPU as a soft upper material for improved ball feel and durability

- ▲ LEVEL OF PRACTICE INTERMEDIATE
- ▲ INTENSITY LOW-MID INTENSITY
- ▲ PLAYING SURFACE GRASS, AG, ASTRO SURFACES
- ▲ AGE 8+
- ▲ TYPE OF PRACTICE COMPETITION GAMES, TRAINING

FIFA-LEVEL
Performance Balls

MAIN MATERIAL	TPU	PACKING	FOAM LINING
BONDING TECH	MS CONST.	INSIDE SHELL	WINDING
STITCHING TYPE	MACHINE STITCH	BLADDER	BUTYL

Debossed channels disrupt airflow across the ball for less drag + more stable flight

Size 5.4.3
420-445 GM
32-Panels
constant after
3000 kicks at 50 km/h

NADI

Built for grassroots football, academies, and young players learning the game. Its tough, abrasion-resistant holds up to daily use while giving next generation of players a true, consistent touch to build their skills on. An accessible, solid-performing entry point into the range.

- ▲ **LEVEL OF PRACTICE** BEGINNER-INTERMEDIATE
- ▲ **INTENSITY** LOW-MID INTENSITY
- ▲ **PLAYING SURFACE** GRASS, AG, ASTRO SURFACES
- ▲ **AGE** 8+
- ▲ **TYPE OF PRACTICE** TRAINING, ACADEMY, GAME

FIFA-LEVEL
Performance Balls

MAIN MATERIAL	TPU	PACKING	FOAM LINING
BONDING TECH	MS CONST	INSIDE SHELL	100% POLY
STITCHING TYPE	MACHINE	BLADDER	SR

Debossed channels disrupt airflow across the ball for less drag + more stable flight

Size 5.4.3
420-445 GM
32-Panels
constant after
3000 kicks at 50 km/h

ASPHLT

Engineered for hard surfaces and small-sided play, with a reinforced low-bounce casing built to survive concrete, cage football, and street-style skill work. Made for the culture born off the pitch.

- ▲ **LEVEL OF PRACTICE** ALL LEVELS
- ▲ **INTENSITY** MID-HIGH INTENSITY
- ▲ **PLAYING SURFACE** ASTRO SURFACES, STREET
- ▲ **AGE** 8+
- ▲ **TYPE OF PRACTICE** STREET, COMPETITION, CASUAL

FIFA-LEVEL
Performance Balls

MAIN MATERIAL	TPU	PACKING	FOAM LINING
BONDING TECH	MS CONST.	INSIDE SHELL	WINDING
STITCHING TYPE	HAND/MACHINE	BLADDER	BUTYL

Debossed channels disrupt airflow across the ball for less drag + more stable flight

Size 5
420-445 GM
32-Panels

RIO

A lightweight, water-resistant construction designed soft on the feet, built for barefoot play with reduced weight for the higher, softer touch, stay true in sand and sun.

- ▲ LEVEL OF PRACTICE ALL LEVELS
- ▲ INTENSITY LOW-MID INTENSITY
- ▲ PLAYING SURFACE BEACH, SAND
- ▲ AGE 8+
- ▲ TYPE OF PRACTICE TRAINING, CASUAL PLAY

FIFA-LEVEL
Performance Balls

MAIN MATERIAL	TPU/PVC	PACKING	FOAM LINING
BONDING TECH	MS CONST	INSIDE SHELL	100% POLY
STITCHING TYPE	MACHINE	BLADDER	BUTYL

Debossed channels disrupt airflow across the ball for less drag + more stable flight

Size 5
420-445 GM
32-Panels
constant after
3000 kicks at 50 km/h

MINI

A scaled-down ball for collectors, fans and kids featuring the same design language as our match balls in a compact size. Perfect for first touches, backyard games, or showing team colors off the pitch.

- ▲ LEVEL OF PRACTICE KIDS
- ▲ INTENSITY LOW
- ▲ PLAYING SURFACE ANY
- ▲ AGE 5+
- ▲ TYPE OF PRACTICE KIDS LEVEL

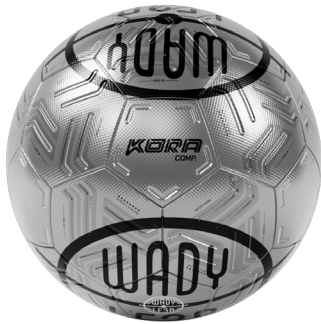

FIFA-LEVEL
Performance Balls

MAIN MATERIAL	TPU	PACKING	FOAM LINING
BONDING TECH	THERMAL	INSIDE SHELL	-
STITCHING TYPE	SEAMLESS	BLADDER	FOAM

Debossed channels disrupt airflow across the ball for less drag + more stable flight

Size 1
200-250 GM
32-Panels

LAB

HANDBALLS

IHF - Level Performance Balls
Designed in Egypt
Engineered in Germany
2025

GRIP +

Featuring a deep, dotted surface texture engineered to maximize grip without the need for resin, giving players reliable control in any condition. Built for durability on outdoor surfaces, it holds its shape and touch throw after throw. Made for players who need dependable grip, resin or not.

- ▲ LEVEL OF PRACTICE ALL LEVELS
- ▲ INTENSITY MID-HIGH INTENSITY
- ▲ PLAYING SURFACE NO RESIN
- ▲ AGE JR. & ADULTS
- ▲ TYPE OF PRACTICE PRO GAMES

IHF-LEVEL
Performance Balls

MAIN MATERIAL	POLYURETHANE	PACKING	FOAM LINING
BONDING TECH	SEWN	INSIDE SHELL	COTTON/POLY
STITCHING TYPE	HAND	BLADDER	LATEX

Debossed channels disrupt airflow across the ball for less drag + more stable flight

Size 0,1,2,3
420-445 GM
32-Panels

VORTIX

Built with a soft, high-tack surface texture engineered for resin play, giving players a locked-in grip even through fast, explosive moves. The foam-backed shell balances control with a true bounce for indoor courts. Designed for players who demand maximum hold when it matters most.

- ▲ LEVEL OF PRACTICE ALL LEVELS
- ▲ INTENSITY MID-HIGH INTENSITY
- ▲ PLAYING SURFACE RESIN COURTS
- ▲ AGE JR. & ADULTS
- ▲ TYPE OF PRACTICE COMPETITION , TRAINING, PRO

FIFA-LEVEL
Performance Balls

MAIN MATERIAL	POLYURETHANE	PACKING	FOAM LINING
BONDING TECH	THERMAL	INSIDE SHELL	100% POLY
STITCHING TYPE	SEAMLESS	BLADDER	SR

Debossed channels disrupt airflow across the ball for less drag + more stable flight

Size 2,3
420-445 GM
